FOR IMMEDIATE RELEASE

CATS BEGINS PRE-REGISTRATION FOR PART 107 AERONAUTICAL KNOWLEDGE TEST - SMALL UNMANNED AIRCRAFT SYSTEMS (sUAS)

With the recent release of the Federal Register’s Operation and Certification of Small Unmanned Aircraft Systems dated June 28, 2016 in conjunction with the Department of Transportation (DOT) and FAA’s Finalized Rules for Small Unmanned Aircraft Systems dated June 21, 2016, CATS is prepared to administer the UAG tests at its testing centers beginning Aug 29th.

By pre-registering, applicants will be able to create an account, choose a preferred date and testing facility. After purchase of the exam, CATS will work with centers to secure preferred location and date (subject to availability)."We are committed to ensuring the testing experience is as positive and stress-free as possible," says Mark Dennehy, President and CEO at CATS. "We work directly with FAA to ensure all Federal compliance requirements are adhered to." The cost for the UAG test is $150 and testing commences August 29, 2016.

About CATS
Computer Assisted Testing Service, Inc., (CATS), doing business as (dba) Comira, is an approved testing service provider for Federal Aviation Administration (FAA). CATS holds an Organization Designation Authorization (ODA) to administer Airman tests on behalf of the FAA. For over two decades CATS has successfully delivered a Airman Knowledge Testing (AKT) software and information technology (IT) infrastructure solution, as called for in FAA Order 8080.6, that consistently meets all Federal compliance requirements.
